Happy Holidays from Wings of Mercy!

From everyone at Wings of Mercy, we would like to wish you and yours a very Happy Holiday Season!

Happy Holidays

Thanks for all that you have done this year to help this organization continue to *give wings to those in need!*

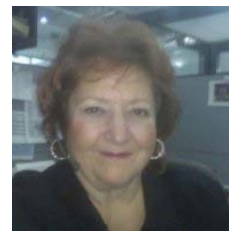

The work you do is truly in the spirit of the holidays.

We look forward to seeing you all in the New Year!

Long Term Member of the Wings of Mercy Family Retires

My Dear Friends,

It seems as if I blinked and 14 years have passed before me. Every one of those 14 years have been a joy. Working with all of you, the patients, Peter and Joan VandenBosch, the WOM Board and Grace has been an absolute honor for me. I truly admire and respect you all.

Sharon Huminsky

Wings of Mercy has touched my heart in so many ways. I have been joyfully serving with this organization for fourteen years, 4 months and 1 week. Wow it went by fast. I have enjoyed every moment of it.

Since I began in 2000, we have continued to lead in flying patients to and from their medical destinations. Patients who could not get help before now continue to lead productive lives. Without you they would not be able to do this. Your help has made a huge difference!

So, it is with much thought and deliberation that I have made this decision. I have given this company my best over the years and I am proud of my accomplishments. It is time for me to retire because it is an opportune time for someone else to bring this organization to greater heights as it is time for me to take myself to greater heights as an individual. I want to emphasize that I will forever be grateful to Wings of Mercy and all of you for having given me the opportunity

to be a part of the accomplishments and the great times we
have had over the years.

Today my daily message from God was this, "Today, Sharon,
we believe God wants you to know that ...God has an
important purpose for you, and made everything possible for
you to succeed. That's not to say it's an easy purpose, or a
convenient one. It might very well seem hard or even
impossible, but it only looks that way. The truth is that one
day you will look back and see how all the pieces fit
together. And how your life has been a complete and utter
success." How apropos.

Just like Peter, I leave Wings at 66 to retire and who knows
what other mission God has for me to serve in? I know
Peter would say that when he heard God say, "there's more
to life than this Peter" he knew the purpose of his calling
may not be an easy one. But when it came he accepted it. I
too, feel God isn't finished with me yet. And I leave knowing
everything is in good hands.

I will miss all of you. You all have a place in my heart. I will
never forget you. May God Bless you and Wings of Mercy!

Sharon Huminsky
Senior Flight Director

Call for Icing Equipped Aircraft

The winter season is upon us and some of the weather
is...well...not always the greatest. Many times the flights we
need to complete are best suited for aircraft that have the
ability to handle the potential for icing conditions.

If you are an aircraft owner or operator who's aircraft is
equipped for flight in icing conditions, we would like to know.
So, please email the staff of our office and let us know if you
have an aircraft that is available throughout this upcoming
winter season that is capable of flight in icing conditions.
Knowing what will is available can help our staff know when
who we might be able to call upon when weather conditions
aren't cooperating as much as we hope they would.

Please email us at info@wingsofmercy.org and let us know if
you have an aircraft that might be able to deal with icing
conditions and also what level of equipment that aircraft has
on it.

Thanks for all the help you all give!

A Patient Story

This lovely "selfie" was taken by
Wings Pilot Vern Eliason on a
recent trip to Rochester, MN,
with Rosemary and Raymond.

Rosemary received a diagnosis for
her condition and can now
manage the symptoms with the
help of local doctors. She is very

thankful for Wings of Mercy and our wonderful pilots!

With your passenger's permission, please take a few shots of your next flight, or get a quick video on your phone. We are collecting photos and video clips for a professionally produced video to be used in our promotional efforts. Don't worry, we will get permission a second time before we use anything you send us.

Wings of Mercy is a volunteer organization that provides free air transportation for people with limited financial means who need treatment at distant medical facilities. Patients are carried on private aircraft by volunteer pilots.
