### Tips for Successful Flying

- ◇ Be committed to flying. Cancelling in an untimely manner effects everyone involved.
- ◇ Comply with the luggage/cargo guidelines. Pilots hate surprises at the airport.
- ◇ Give accurate body weights. The pilots use this information to make your flight as safe as possible.
- ◇ Avoid coffee, soda, or any diuretics within 4 hours of flight. Small planes do not have restrooms.
- ◇ Arrive at the FBO half an hour before your scheduled departure time.
- ◇ Be aware of any medication that may cause adverse effects at high altitudes.
- ◇ Have a family member or passenger give any assistance needed to enter or exit the plane.
- ◇ Arrange for all ground transportation needs well advance.
- ◇ No smoking is allowed on the plane.
- ◇ Call your pilot if you are going to be delayed for any reason.
